

Well Abandonment

Current Projects

- Plug and Abandon Strategies for Canada's Oil & Gas Wells
- Definitive Gas Migration Testing: Comparative Assessment of Different Gas Migration Testing Techniques and Field Instrumentation

Completed Projects

- Application of Distributed Sensing for enhanced determination of Surface Casing Vent Flow (SCVF)
- [Methane Emissions – Human and Ecological Health Risk based Ranking and Prioritization Tool](#)
- [Fluid mechanic causes of gas migration](#)
- [Investigate the Potential for Surface Casing Vent Flow/Groundwater Migration Issues](#)
- [Identifying, Characterizing and Addressing Soil and Groundwater Issues related to SCF and Other Types of Natural Gas Migration](#)
